Insertion d'une chaîne d'assemblage automatisée.

# 02 — CERTIFICAZIONI

## CERTIFICATIONS

Dalla nascita di 2 Emme Clima, qualità e affidabilità sono sempre state al centro del nostro business.

Per garantire tutto ciò ai nostri clienti, abbiamo deciso da sempre di affidarci all'ente TÜV SÜD per certificare le nostre staffe e i processi produttivi e per essere sempre in grado di soddisfare i più alti standard internazionali in termini di sicurezza, durata e sostenibilità.

Our brackets are tested with a three times higher load capacity.

Produits testés avec un poids 3 fois supérieur.

### 500

**ORE**  
HOURS  
HEURES

[←] Le nostre staffe vengono sottoposte ad un test di corrosione in nebbia salina di oltre 500 ore conforme a EN ISO 9227 per garantire un'alta resistenza nel tempo.

Our wall brackets are tested against corrosion with a neutral salt spray test over 500 hours according to EN ISO 9227 in order to ensure high resistance over the years.

Nos supports muraux sont testés contre la corrosion en brouillard salin durant plus de 500 heures conformément à l'EN ISO 9227 pour garantir une haute résistance au temps.

[←] Analizziamo la reazione delle staffe durante l'installazione tramite un test d'impatto.

We analyse the reaction of the brackets during the installation through an impact test.

Nous analysons la réaction des supports en phase d'installation grâce à un test d'impact.

Since the birth of 2 Emme Clima, quality and reliability have always been at the heart of our business.

To guarantee all this to our customers, we have always rely on the TÜV SÜD body to certify our brackets and production processes and to always be able to meet the highest international standards in terms of safety and sustainability.

Depuis la naissance de 2 Emme Clima, qualité et fiabilité sont au coeur de notre business.

Pour les garantir à nos clients, nous nous appuyons sur l'organisation TÜV SÜD afin de certifier nos supports et processus de production dans le but de satisfaire les plus hauts standards de qualité, durabilité et sécurité.

# 03 — GO GREEN

Il nostro impegno quotidiano nel miglioramento delle procedure e delle tecnologie utilizzate nel ciclo produttivo è volto a ridurre l'impatto sull'ambiente e sul territorio.

Our daily commitment to improve the processes and technologies used in the production cycle are aimed at reducing our impact on the environment and on the territory.

Notre engagement quotidien dans l'amélioration des procédés et des technologies utilisés dans notre cycle de production vise à réduire l'impact sur l'environnement et sur le territoire.

Siamo attenti alla salute dei nostri lavoratori garantendo un ambiente di lavoro sicuro e protetto.

Il nostro impianto di verniciatura è completamente automatizzato. Il recupero delle polveri è quasi totale (98%).

We take care of the health of our workers, guaranteeing a safe and secure working environment.

Our painting plant is completely automated. The 98% of the powder used is recovered in the production cycle.

Nous sommes attentifs à la santé de nos collaborateurs en garantissant un environnement de travail sûr et protégé. Notre cabine de peinture est complètement automatisée.

La récupération des poudres est presque totale (98%).

**Utilizziamo imballi completamente riciclati per i nostri prodotti.**

We use completely recycled packaging for our products.

Nous utilisons des emballages complètement recyclés pour nos produits.

Gli pneumatici sono progettati per durare nel tempo e i materiali di cui sono composti possono impattare sull'ambiente per più di un secolo. I nostri Brooklyn in gomma riciclata SBR aiutano a contrastare questo fenomeno riducendo l'inquinamento che ne deriverebbe.

Tires are designed to last over the years and their material can impact the environment for more than a century. Our Brooklyn in recycled rubber are helping to fight this phenomenon by reducing the pollution caused by tires.

Les pneus sont projetés afin de durer des années et les matériaux qui les composent peuvent avoir des conséquences sur l'environnement pendant plus d'un siècle. Nos Brooklyn en gomme recyclée SBR aident à lutter contre ce phénomène en réduisant la pollution qui en dériverait.

# CAVI SCALDANTI

## HEATING CABLES / CÂBLES CHAUFFANTS

[IT]

### NO-FROST CON TERMOSTATO

Cavo scaldante contro il congelamento delle apparecchiature, a protezione dei tubi. Dotato di termostato antigelo che attiva il circuito solamente in presenza di una data temperatura permettendo un notevole risparmio energetico. Fornito già tagliato a misura e pronto all'uso. Non può essere accorciato.

[EN]

### NO-FREEZING WITH THERMOSTAT / ANTIGEL

Heating cable against freezing appliances, to protect pipes. Thanks to the integrated no-freezing thermostat the circuit switches-on automatically under a specific temperature. Supplied cut and ready to be used. It cannot be shortened.

[FR]

### AVEC THERMOSTAT

Câble chauffant contre le gel des équipements, protège la tuyauterie. Doté d'un thermostat contre le gel qui active le circuit seulement en-dessous d'une température spécifique permettant ainsi une économie d'énergie. Fourni déjà coupé et prêt à l'emploi. Ne peut être raccourci.

## CONDIZIONI DI VENDITA

### VALIDE SOLO PER VENDITE IN ITALIA

#### ORDINI

Gli ordini di acquisto dovranno pervenire per iscritto e le richieste di variazione, aggiunte o annullamenti dovranno pervenire entro e non oltre le 48 ore dalla data d'invio dell'ordine stesso. Seguirà nostra conferma scritta riportante le condizioni pattuite. L'accettazione di un ordine prevede che l'importo fatturabile sia di almeno € 500,00 al netto di sconti, addebiti e IVA.

#### TERMINI DI CONSEGNA

La consegna verrà effettuata entro 10 giorni dal ricevimento dell'ordine. Possibili ritardi delle consegne non comportano responsabilità da parte del venditore.

#### IMBALLI

Adatti a garantire l'integrità degli articoli durante il loro trasporto.

#### TRASPORTO

Porto assegnato salvo accordi speciali. La merce viaggia sempre a rischio e pericolo del compratore anche se venduta franco destinatario.

#### PAGAMENTI

I pagamenti dovranno essere concordati tra le parti anticipatamente e saranno quelli indicati nella conferma d'ordine. In caso di ritardo nel pagamento, verrà bloccata immediatamente ogni fornitura e saranno applicati, dal giorno della mora, gli interessi legali.

#### RECLAMI

Eventuali reclami scritti saranno accettati entro 8 gg dalla data di ricevimento della merce. Eventuali resi della merce dovranno essere autorizzati per iscritto e saranno accettati solo se accompagnati da regolare d.d.t. e con imballo integro.
